

# FOR THE BLOOD BROWN'S IRON BITTERS

Combining IRON with PURE VEGETABLE TONICS, quickly and completely CLEANSSES and ENRICHES THE BLOOD. Quickens the action of the Liver and Kidneys. Clears the complexion, makes the skin smooth. It does not injure the teeth, cause headache, or produce constipation—ALL OTHER IRON MEDICINES DO. Physicians and Druggists everywhere recommend it.

Dr. N. S. ROGERS, of Marion, Mass., says: "I recommend Brown's Iron Bitters as a valuable tonic for enriching the blood, and removing all dyspeptic symptoms. It does not hurt the teeth."

Dr. R. M. DEXTER, of Reynolds, Ind., says: "I have prescribed Brown's Iron Bitters in cases of anemia and blood diseases, also when a tonic was needed, and it has proved thoroughly satisfactory."

Mr. Wm. BRAN, 26 St. Mary St., New Orleans, La., says: "Brown's Iron Bitters relieved me in a case of blood poisoning. I heartily commend it to those seeking a blood purifier."

Mr. W. W. MORRIS, of Tusculum, Ala., says: "I have been troubled from childhood with Impure Blood and eruption on my face—two bottles of Brown's Iron Bitters effected a perfect cure. I cannot speak too highly of this valuable medicine."

Genuine has above Trade Mark and crossed red lines on wrapper. Take no other. BROWN CHEMICAL CO., BALTIMORE, MD.

## TERRIFIC EXPLOSIONS.

A DISASTROUS AND FATAL FIRE AT YOUNGSTOWN, OHIO.

Natural Gas Causes the Death of Two People and a Heavy Loss of Property—Seven Firemen Injured in a Gas Explosion in Chicago—Damaged Pipes the Cause.

YOUNGSTOWN, O., Jan. 6.—A terrific explosion shook the town at 3 o'clock this morning. Everybody hurried from his bed thinking that an earthquake visitation had come. Following the explosion, and within five minutes, a red glare illuminated the sky. The fire alarm bells began clanging and, coupled with a sudden roar, the cracking of flames, the crash of breaking timbers and falling bricks, intermingled with a number of shrieks, it seemed as if the end of the world had come.

The shock was caused by an explosion of natural gas. It occurred in the basement beneath the almost completed Andrews block. The gas had filled the cellar from a leak in the main, and becoming ignited in some mysterious way, exploded with fearful energy, seeming to lift the new block high in the air from its very foundation, only to hurl it down again a mass of ruins. Fire almost immediately followed, and spread with frightful velocity to adjoining property.

Before the fire was under control Drakes' livery stables and two residences went up in smoke, and the Baptist church was left with only the walls standing. Jack Seiple, watchman in the Andrews block, stated as he opened the window in the basement to secure ventilation an explosion followed, and he was wrapped in flames. Seiple ran out, and rolling in the snow, extinguished his burning clothing. His face and hands were badly burned, and he was sent to the hospital. Thomas Bramigan, aged nineteen years, who was sleeping in the Andrews building, is missing, and it is supposed was cremated.

Another man, name unknown, was also in the building. He, too, must have been cremated. The Andrews block was in process of erection, and was nearly completed at a cost of \$60,000, but had not been taken off the hands of the contractors. Manning, Goethe and Youngstown lodges Knights of Pythias were preparing to occupy the large hall, and lost all their regalia. Mayer Bros., dry goods, on first floor, and J. H. Shields, meat market, lost everything. The total loss is over \$100,000; about two-thirds insurance. Assistant Chief Davis, of the fire department, was slightly burned. When the fire was at its height telegrams for aid were sent out to adjacent towns. Warren responded, but fortunately the services of her firemen were not needed.

Seven Firemen Seriously Injured. CHICAGO, Jan. 6.—A gas explosion occurred at the H. T. Wacker carriage factory, at the corner of Wabash avenue and Harrison street this morning, and seven firemen were seriously injured. The gas had escaped in a small receptacle under the sidewalk. When the firemen went to extinguish the blaze they were overcome with the gas. There were four firemen of Truck No. 1, two of Truck No. 9 and one of Engine No. 32. The injured firemen were taken to Eagan's drug store, opposite the carriage factory, and after considerable labor were restored to consciousness. The gas escaped from one of the city pipes that had been damaged by the fire.

## REV. HADDOCK'S MURDER.

Paul Leader Makes a Statement Which Clears Aresendorf.

ST. LOUIS, Mo., Jan. 6.—Paul Leader, one of the parties under indictment for the murder of Rev. George C. Haddock, made an oral statement to a reporter last evening, being the first time he has been induced to say anything about the crime. He says frankly that he was present at the time of the murder and knows the names of all the parties there.

As has been stated before, a party had gathered in Junk's saloon that evening to await the return of Haddock, who had gone to the outskirts of the city to get evidence in the injunction suits. John Aresendorf was there, and when Bismarck came in to announce that the buggy had returned, was talking to Alderman Grady and James Schollard. The crowd at once started out to walk briskly to the corner where the crime was committed, and there awaited the preacher's coming.

Leader was in company with a friend whose name he declined to give, and walked more leisurely, arriving after the others had stopped. They hesitated only the moment, and seeing there was to be trouble, passed the crowd, and when about one hundred feet away heard the shot, and turning around saw Haddock stagger and fall, and saw the man who fired the shot run north up Water street and not across the bridge, as has been told by others. The man who ran wore light pants and flat hat. Leader will not say what his name is, but says that nobody else was in the middle of the street, the crowd being fully twenty-five feet away.

Leavitt wore light pants and a flat straw hat on that night, and the testimony heretofore produced shows that he ran up Water street immediately after the shot was fired, so that there can be no doubt as to whom Leader refers. Leader says that Aresendorf was not in the crowd, and of this fact he is very emphatic. He also says that Otto Greither, who claims to have been standing on the opposite corner was not in the vicinity, and that his testimony is false. This story is the first that has been given pointing to Leavitt as the guilty party. The trial of the case is anxiously awaited, but will not occur until the latter part of January.

## John Roach's Condition.

NEW YORK, Jan. 7.—John Roach was considerably weaker this morning. He was very restless last night and during intervals, when the effects of the hypodermic injections had worn off, he complained of the great pain in his throat, but there is no immediate danger of fatal results.

## After the Vacant Chair in the Senate.

CHICAGO, Jan. 7.—L. E. Payson has left this city for Springfield, it is said, at the urgent request of Governor Oglesby, where it is believed his name is to be used as a candidate for United States senator to fill Senator Logan's place.

## MYSTERIOUS POISONING.

Three of the Mauri Family Dead, and Five Still in Danger.

BROOKLYN, Jan. 7.—A very singular case of poisoning, or some virulent and fatal contagion, was brought to light to-day by the deaths of three of the children of Mr. Joseph Mauri and his wife, at their residence No. 111 Butler street, South Brooklyn. Although three or four physicians have been in attendance upon the family since Sunday last, they seemed to have carefully avoided making any report of it, and it was not until the coroner was called upon to hold an inquest over the bodies, that it was learned that anything unusual had occurred.

The first victim was Joseph Mauri, twelve years of age, who died at the residence of his aunt, a Mrs. West, at 188 Monroe street. The boy went to his aunt's last Thursday, and it rather puzzles the doctors that he should be taken suddenly ill there on Tuesday of this week, and die Wednesday morning, while the rest of the family at 111 Butler street were all in their usual good health up to Sunday evening, when, with the exception of Mrs. Mauri, they all became very ill. Mr. Mauri is a druggist, and has a store at 449 Hicks street. When he and the children became ill, he appeared inclined to think that they had been poisoned in some way, and he immediately summoned Dr. Raub, his family physician, and everything was done to alleviate their sufferings. They were all vomiting and retching, and they became thoroughly exhausted.

The second victim was Eugene, the baby, who was twenty months old, and the third was Johnny, aged six years. To-day Mr. Mauri, who is about forty years of age, was rolling about in his bed unconscious, and seemed to be in a dying condition. Four of the children were equally as bad. Dr. Raub said he thought they had been poisoned, but so far as he could learn they had not eaten anything which might have caused their illness. They ate chicken on Sunday and some New Year's cake, and Mrs. Mauri said she had eaten more than the rest. Dr. Bartley, Dr. Griffiths, Dr. Moore and Dr. Parsons were called upon, and they said the symptoms were like those of poisoning.

When Mr. Mauri first learned of his son's illness at Mrs. West's he went up there, and then he returned home sick himself. The doctors have made careful examinations of the patients and upon the bodies of some are large water blisters. They have had burning sensations in the stomach like persons suffering from arsenical poison, and before John and Eugene died they had hemorrhages of the nose. All the doctors seemed to be puzzled over the case. When they told Mr. Mauri that they were going to make a post-mortem examination to ascertain the cause of death, he said she was quite willing and anxious to have it done. The coroner will make every effort to solve the mystery. Some of the doctors think it may be some pestilential disease which has broken out.

## FIGHTING FOR A SENATORSHIP.

The Beginning of the Great Struggle in the Indiana Legislature.

INDIANAPOLIS, Jan. 7.—The session of the legislature which has just opened, will without doubt be one of the most exciting in the history of the state. Besides the election of a senator, which will take place next week, there are quite a number of contests, the Democrats alone having five in the senate and two in the house. The contest for the senate between McDonald and Gray is very warm, and the talk of Niblack as a compromise candidate is gaining strength.

Holman's chances are slim. The Democrats may conclude to make no opposition to Lieutenant Governor Robinson taking his seat, but will seek the adoption of new rules preventing Republicans, whose seats are contested, from voting pending the conclusion of the contest. The decision as to who shall preside over the senate will not be made until next Monday, possibly not for several days after. The Democrats have a majority of twelve in the senate. The Republicans have a majority of ten in the house.

## Boycotting Boot and Shoe Factories.

CHICAGO, Jan. 7.—Five of the principal boot and shoe manufacturers have had a boycott declared against their products by the shoemakers' assemblies, and the question as to whether they have violated their agreement of last spring, not to increase the number of convicts in their employ, has thus been brought to the front again. When the state board of the knights met in Chicago some time ago, they investigated the charge that the five firms had violated the agreement with their employees, and exonerated the accused firms. The decision was received with great dissatisfaction by the shoemakers. The masters withdrew from the state assembly, and finally agreed to defy their authority and renew the boycott. The firms whose goods are requested to "let alone" are: C. H. Henderson & Co., M. D. Wells & Co., Selz, Schwab & Co., C. H. Fargo & Co. and Phelps, Dodge & Palmer.

## A Practical Joke.

TOLEDO, O., Jan. 7.—About a year ago a romantic story was published of an Irish emigrant girl, named Annie O'Connor, who was working at a hotel here, receiving a letter from England, stating that she was an heiress to vast estates. The story turned out afterwards to be a practical joke on the girl, but she was deluged with letters of marriage from all over the country. Among the letters received was one from James O'Keefe, a wealthy resident of Pittsburgh, which resulted in a correspondence, and about ten days ago in a meeting. Information has been received from Pittsburgh that the couple were married there yesterday.

## Withdrawing From the Cable Pool.

NEW YORK, Jan. 7.—The Tribune says: "Rumors that the French Cable company would withdraw from the cable pool are confirmed substantially by private dispatches from Paris and by statements of cable officials in this city."

## Another Express Robbery Indictment.

ST. LOUIS, Jan. 7.—The grand jury has found and returned to the court an indictment against Dan Moriarity, charging him with being an accessory after the fact to the "Jim Cummings" express robbery.

## A Steamer Libeled.

NEW YORK, Jan. 7.—A libel for \$100,000 was placed on the steamer Lydian Monarch yesterday, for money alleged to have been loaned the Monarch line by Timothy Hogan.

## THE HOUSE AND SENATE.

PROCEEDINGS OF BOTH BRANCHES OF THE LEGISLATURE.

The Senate Passes the Bill Granting a Pension of \$2,000 Per Year to Mrs. Logan. Increasing the Pension of Mrs. Francis P. Blair—Other Washington Affairs.

WASHINGTON, Jan. 7.—The senate passed the bill granting a pension of \$2,000 per year to the widow of Gen. Logan.

The senate also passed, without discussion, the bill increasing the pension of the widow of Gen. Francis P. Blair from \$50 per month to \$2,000 per year.

Mr. Edmunds presented a memorial from the committee of the general national convention of the Protestant Episcopal Church, praying for congress to provide for obtaining satisfactory marriage and divorce.

Mr. Blair, a memorial from many organizations throughout the country praying for legislation to prevent the violation of the Sabbath by the running of railway trains.

Shortly before 2 o'clock consideration of the interstate commerce bill was resumed, and Mr. Platt continued his speech begun yesterday.

## House.

WASHINGTON, Jan. 7.—The house has passed the pension appropriation bill. It appropriates \$76,247,500.

The house, in committee of the whole, resumed consideration of the bill for the improvement of the Erie and Oswego canals.

Mr. Randall, of Pennsylvania, suggested that an early vote be taken, as the bill was unlikely to pass.

## Filling Vacancies in Committees.

WASHINGTON, Jan. 7.—It is considered likely that Senator Sewell will be chosen chairman of the senate committee on library affairs, left vacant by the death of Gen. Logan, and that Senator Sewell's present chairmanship of the library committee will be filled by Senator Hawley. Senator Stanford, it is stated, will be the chairman of the civil service and retrenchment committee, now occupied by Senator Hawley. Should these changes take place the present clerks will retain their positions throughout at this session.

## Nominations Sent to the Senate.

WASHINGTON, Jan. 7.—The president has sent the following nominations to the senate: Thomas C. Mannix, of Louisiana, to be United States minister to Mexico; Hugh A. Dinmore, of Arkansas, to be consul-general of the United States to Corea; Robert E. Culbreth, of California, to be consul of the United States at Apia; Thomas P. Bashaw, of Missouri, to be United States attorney for the eastern district of Missouri.

## Contracts for Indian Supplies.

WASHINGTON, Jan. 7.—The commissioner of Indian affairs has awarded the following contracts: M. R. Scannell, of Washington, to furnish 137,000 pounds of bacon at Chicago at 6.85 cents per pound; also to N. C. Slavens, of Kansas City; W. H. Smith, of St. Louis, and C. H. Searing, of Arkansas City, for bison, salt, soda and flour. These supplies are for the Pawnee Indians, in Indian Territory.

## Deciding Election Contests.

WASHINGTON, Jan. 7.—The house committee on elections have decided in the contest of Page vs. Pierce, from Rhode Island, that neither was entitled to the seat, and in the case of Kidd vs. Steele, from Indiana, that Steele was elected and should continue to hold the seat. There will be a minority report in the former case, but the latter is a unanimous verdict.

## DEFAULTED BONDS.

The Government Asked to Sue Southern States for \$50,000,000.

NEW YORK, Jan. 7.—The World says the United States government holds a trust for the benefit of the Indian tribes \$1,710,000 of bonds issued by southern states, on which default has been made. About \$50,000,000 of the same defaulted securities are held by private parties in this city. E. L. Andrews, attorney for certain New York holders of the repudiated bonds, has written to Secretary Lamar urging that the United States sue the defaulting states, claiming that the United States has the power to bring an action against any one of the repudiating states, while a private individual cannot.

Secretary Lamar has referred the matter to Attorney General Garland. If the United States should bring the desired suits and win them, the individual holders of the bonds would profit along with the government, which now annually makes good to the Indians the interest which the states refuse to pay.

## AN ATROCIOUS MURDER.

Two Mexicans Killed, One Wounded and Another Shot Seven Times.

GALVESTON, Tex., Jan. 6.—A special from San Marcos to the News says: Particulars of a most atrocious murder committed on Saturday night have just reached here. Four Mexicans were employed on the farm of W. C. Shumacs, on the Cottonwood, in Guadalupe county, to clear and grub his land. While in camp Saturday night they were fired upon by a party of negroes, and two of the Mexicans were instantly killed.

Another of the party was mortally wounded, and the fourth managed to crawl to a house some distance away. Before leaving the murderers poured kerosene oil over the body of one of the Mexicans and set fire to it, burning it to a crisp. They were traced four miles toward Angerbury and were then lost sight of. The Mexican who is still alive states that two of the men were negroes and the third was a mulatto or a white man.

## A Solution of the McGlynn Matter.

NEW YORK, Jan. 5.—A close friend of Dr. McGlynn says that he is informed by a letter from Rome that as a solution of the McGlynn matter, which attracted unprecedented interest in church circles there, the doctor will probably be offered the presidency of the American college in Rome.

## A Cattle Rancho Attached.

GALVESTON, Tex., Jan. 6.—Garza & Co.'s rancho, in Duval county, has been attached to satisfy a claim for \$11,500 in favor of Goldfrank, Frank & Co., of San Antonio.

## AN APPEAL FOR AID.

Hundreds of Families in Texas on the Verge of Starvation.

CHICAGO, Jan. 7.—A Times special from Fort Worth, Tex., says: The Gazette has made the following estimate of the number of destitute families in the drought-stricken region of Texas: Callahan county, 50; Parker, 101; Taylor, 200; Palo Pinto, 230; Coleman, 150; Jack, 300; Stephens, 350; Runnels, 200; Jones, 225; Shackelford, 150; Haskell, 30; Young, 150; Brown, 400; Eastland, 500; Comanche, 500; Nolan, 50; Fisher, 100; Fratt, 150; Morton, 10; and Hardeman, 150. From several counties no figures have yet been obtained, and in the estimate given above the figures are in every county smaller than the number reported by the county judge's convention, so there is no room for shrinking.

In speaking of the situation, the Gazette makes an appeal for aid for the sufferers, and says: "There is a privation and want in certain countries that demand immediate relief, and the truth concerning it should be told in the interest of suffering humanity. The truth will not only result in giving bread to those who need it, but it will extract the mischief from any exaggeration. But for the wholesale falsehood that people in Texas were suffering by the hundreds of thousands, those who were actuated by selfish interests would not have been able to create the impression that no suffering at all existed. Strong men would go away to other localities in search of work, dread to leave wives and babies in their homes without bread. Men who have homes paid for grow desperate and consider whether they shall carry their wives and children to the county seats, leave them as paupers to be cared for while they seek work and money and bread wherever among other communities they may be found. All the suffering counties are not suffering in the same degree and to the same extent, but there is a general need and privation, so intense without aid, without some recognition of common humanity, there may go out to the world a story of more bitter shame and greater hurt to the state than any which have been exaggerated in the past."

## INTO THE NIAGARA.

A Young Man Commits Suicide by Jumping 105 Feet.

BUFFALO, N. Y., Jan. 7.—Early Monday evening an unknown man committed suicide by jumping from the railway suspension bridge. The indications are now that the man was Frank Ernest Cutting, a book-keeper and clerk. Wounded pride seems to have been the cause of the suicide. Last Friday, when paying off the hands of his employer, a tailor, he found himself short of change and stepping into the Fulton market, was given a fifty dollar for a five dollar bill. The bill he put in his pocket. He was arrested last night at a dance in the presence of relatives and friends, but on restoring the money he was given his liberty.

The disgrace preyed upon his mind, he claiming that he had intended to return the bill, and Monday morning he left the shop, ostensibly for a lawyer's office. That was the last seen of him here. On Tuesday a letter was received from him by his sister, inclosing a life insurance policy in the American Order United Workmen and a diamond pin belonging to his employer. He stated in an accompanying letter that he had determined to leave Buffalo forever. To-day he was traced to the Falls and there again all clue to his further movement was lost. From the slight description given of the man who jumped from the bridge, it would seem that Cutting and the suicide are identical. The jump was 105 feet. Cutting lived with his two sisters and mother.

## FIREMAN FATALLY INJURED.

A Singular Accident Which Will Result in the Death of Two Men.

EVANSVILLE, Ind., Jan. 7.—A singular and fatal accident occurred yesterday afternoon about 4 o'clock which will result in the death of two men. An alarm of fire was turned in and Reel No. 8 started on its way with the drivers stationary and two firemen on it. The streets were very slippery and in making a turn the reel commenced to slide on the street car track, and striking an obstruction was turned over twice.

George Brock, captain, and John Jordan, fireman, who were riding on the spool, were thrown to the ground, and being stunned, were caught under the reel on its second rebound and so crushed as to bar all possibility of recovery. Brock had four ribs and collarbone fractured and is injured internally; while Jordan had two ribs and a shoulder broken and severely crushed about the head and body. Frederick Killinger, the driver, was thrown from the reel and his knee cap broken. Jacob Daum escaped with slight bruises.

## Patent Medicine Dealers Assign.

NEW YORK, Jan. 7.—George W. Laird & Co., chemists, and dealers in patent medicines at 44 Park Place, and 39 Barclay street, have made an assignment without preferences. Mr. Laird was the proprietor of "Laird's Bloom of Youth," a cosmetic which formerly had a large sale, and the firm also put upon the market a substitute for cod liver oil, known as olo-o-chyle. The failure is a surprise, as the business seemed prosperous, and Mr. Laird was regarded as a man of wealth. He is a prominent member of the Old Guard of this city, and his residence at Shady Side, N. J., cost \$40,000. He has a high reputation in the trade. The liabilities and assets are not yet known.

## Earthquake in Texas.

PAIGE, Tex., Jan. 7.—A slight shock of earthquake occurred here at 11 o'clock yesterday morning, which lasted two or three seconds. No serious damage was done. The servants in the Williams house were greatly alarmed at the rattling of the dishes and pans in the kitchen. In other stores tinware and stovepipes rattled and the water pipes around the eaves of the house were shaken down. Several clocks stopped. The shock was felt for several miles around, and evidently passed from south to north. A few say they heard a rumbling noise.

## Don't Want a Cabinet Position.

OTTAWA, Ont., Jan. 7.—The Marquis of Londonderry, who has been offered a position in the British ministry, has replied in effect that he is not prepared at present to abruptly relinquish his official duties as governor-general of Canada, and that he must therefore decline the proffered position.

# DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,  
Proprietors.

FRIDAY EVENING, JAN. 7, 1887.

The Mt. Sterling Gazette (Republican) says: "Although the cry of hard times has been ringing in our ears for the past year, the people had plenty of money to buy Christmas goods, and we feel safe in asserting that our merchants sold more goods and took in more cash this year than they have in any holiday season for many years past."

Col. J. B. Chevis, a temperance lecturer from this State has instituted suit in the United States Court against the Mayor of Greenville, Ala., for \$50,000 damages for injuries received to his person. Mayor Perry recently assaulted and beat Chevis at the Greenville depot for alleged slanderous remarks made by Chevis in speeches during the prohibition canvass in Greenville.

## OUR PUBLIC SCHOOLS.

Notes and Comments by Superintendent Galbraith.

Editor Bulletin: I herewith send for publication my "school notes." This should have been attended to earlier, but absence from home and other circumstances beyond my control, are the cause of the delay.

It is always my aim to notice the "good points" in dealing with schools, as with children, for I believe that the "bushel being full of wheat has no room for tares," and that teachers and pupils are improved more by study and healthful work, than by criticism and fault-finding.

NO. 1—MURPHYSVILLE.

The house is furnished with patent seats, would be comfortable but for the lack of a new stove and some minor repairs.

The census report, —; there are fifty-four pupils on the roll, and I found forty present. Lydia Tomlin, John Wood and Scott Case have lost no time from school. The trustees are Dr. G. W. Gault, Geo. B. Galbraith and J. H. Wright. Mr. Galbraith and Mr. Wright have visited the school, and have been very attentive to its needs.

Miss Ida Richards is teaching this school. She has attended a Normal school and uses the books from the Teachers' Library, and is well qualified for her work. She uses the written methods in nearly all her classes, and has secured marked advancement. This was especially noticeable in the classes in grammar. Miss Richards is an untiring and pains-taking teacher, and succeeds in inspiring her classes with much of her own enthusiasm.

NO. 2—DOVER.

Census report, one hundred and ninety-nine; total on roll, ninety; total in attendance, sixty-two.

The trustees are T. C. Westfall, James N. Boyd, Oscar Hanna, James Wilson and John S. Wilson. Mr. Boyd has visited the school. The house is a two-story brick, and the school is taught in two rooms.

The principal, Miss Belle Reynolds, teaches in upper room. This is a very comfortable and pleasant room and well furnished. Mrs. Anna Howard and J. W. Reynolds of the patrons have visited this room. Miss Reynolds is an enterprising teacher. She keeps for use a few well-chosen works on the subject of teaching. This should be done by every teacher who hopes to make teaching a success; for by having these books at hand, the teacher is able to consult them on the difficulties which come up in the daily work, and profit by their suggestions. Miss Reynolds uses the written methods, and inspires the most earnest efforts on the part of her pupils. Her grammar class was managed with special skill. The children were required to construct sentences containing certain required elements, and then point these out. This is not only an excellent language lesson, but requires the pupils to think out the work as they do it, and prevents recitations of mere book lessons. The order and deportment of the this room is first-class. Those in this room who have lost no time are Lou Dunham, Clara Hanna and Laura Westfall.

The primary room is taught by Miss Mamie Lynch, of Louisville, Ky., who had charge of it last year. This room is not quite so bright and pleasant as the room above, but it is very comfortable, and in need of a new blackboard. There are in this room forty-nine pupils on roll, thirty-three of whom were present. Of the patrons, Mrs. Mary Howard has visited the school. Miss Lynch is an energetic and earnest teacher, and inspires the greatest confidence and love on the part of her pupils. I was especially pleased to hear a class properly trained in mental arithmetic. This is by far too much neglected in our public schools. There are few exercises in the common school course of greater disciplinary value, and I hope to see classes in all our schools in the near future. Miss Lynch also described a contrivance which she called a "sand box," to be used in moulding in her geography, which promises to be new, interesting and useful to the primary classes. The discipline of this room is also good. The whole school is in good working order, and maintains the same standard we noticed last year. But there is an unpleasant subject in connection with this school that we feel compelled to call attention to, and that is the fact that the comfortable furniture of the school house has been paid for by the trustees, and there is no effort on the part of the patrons to reimburse them. This demand should be met by a district tax. It is not fair or just that two men should shoulder this expense for the common use and benefit of all. And it is not in keeping with the manhood and justice of the people to neglect it so long.

L. W. GALBRAITH.

## It's an Art to Mix Drinks.

"Oh, yes, it is a good deal of an art to mix drinks properly," said the bartender, as he set the cocktail on the mahogany and put fifteen cents in the drawer. "Some bartenders make big wages, too, because they can mix a drink in a fancy shape, but that's nothing compared with what some men make that can mix the liquors themselves. Almost any man can put a little Angostura and syrup and whisky in a glass and stir it up, but when a man can put some raisins and pure spirits and a few drops in a barrel and make pretty good liquor, he's an artist and a dandy. Those fellows come high, but the wholesalers have to have 'em. I know one big liquor house in Chicago that pays a man \$10,000 a year to make liquor for them. The other houses have tried to get him, but his firm won't let him go. You take a man that can have the head of the house say to him at supper: 'Casey & Curacao want 100 barrels '78 Maryland rye right off,' and can go and make up the whole order out of the raw material and get it barreled by 6 in the morning, and he's the life of the business; \$10,000 a year ain't much for him."—Detroit Journal.

## Visiting the Dime Museum.

No place is better adapted to the study of human nature in its many forms and conditions than the dime museum. Through the courtesy of my friend I witnessed the performance at its museum. The play was undeniably bad. It was of the blood curdling order and contained the customary hero, heroine and heavy villain. The machinations of the latter were on every occasion discovered in the nick of time by the hero, much to the joy of the small boys in the gallery and the no less staid occupants of the orchestra stalls. During the two acts I was present no less than a dozen shots were fired, and the same number of men supposedly killed or fatally injured. The powder wafting out into the auditorium caused much discomfort, but this in no way dampened the ardor of the gallery gods or one whit lessened the pleasure which the exciting incidents of the following acts gave them. Old and blasé theatre goers, when tired of the legitimate, should, as a relaxation, visit the dime museum. There, although the play may not interest them, they could take pleasure in the pleasure of others.—Brooklyn Eagle.

## A Gift to Science.

It is proposed to make the Lick observatory truly a gift to science as well as to California by placing the great telescope at the disposal of the distinguished astronomers of the world during certain hours of each twenty-four, thus giving visiting specialists an opportunity of attacking the unsolved problem of astronomy with the most powerful optical aid to be obtained.—Arkansas Traveler.

## The Brewers' Strike in Philadelphia.

PHILADELPHIA, Jan. 7.—The striking beer brewers held an enthusiastic meeting. Speeches were made by local leaders, denouncing the Knights of Labor and advising the men to refuse the offer made by that organization to take them back. Speeches were also made by Louis Herbrand, of the National Beer Brewers' association, and George Barth, secretary of the Beer Drivers' union of New York. They promised financial aid and advised the strikers to stand firm. Some saloon keepers have boycotted the breweries where the employees are on a strike, and are selling New York union beer. The brewers declare that new men are being taken on every day, and that they have no intention of acceding to the demand of the strikers.

## Girls' Co-Operative Society.

CHICAGO, Jan. 7.—The girls co-operative clothing manufactory, which was incorporated two weeks ago, began operations today at 145 Ontario street. A large room has been fitted up with about thirty sewing machines, and sixty girls, who have heretofore worked for others, are now banded together to work for themselves. They will each draw moderate wages weekly, and the amount of work done by each will be kept account of and a dividend declared accordingly at the end of the year. This is the first experiment of the kind tried in this country, and the women, who are all Knights of Labor, are very hopeful about their enterprise.

## Asking Governor Hill for a Pardon.

NEW YORK, Jan. 7.—John Wallace is serving a ten years' sentence at Sing Sing prison for highway robbery. He was convicted upon the testimony of Henry Flesher, of this city, who while asleep on a bench in a park had his watch and money stolen. On awakening he saw Wallace near, and caused his arrest. He swore positively on the trial that he saw Wallace rob him. Efforts have been made to secure Wallace's pardon, and Flesher now admits that he was too positive in his testimony. He says he has suffered torture on account of the thought that he had condemned an innocent man to prison, and he joins in the appeal to Governor Hill to pardon Wallace.

## North Carolina Legislature.

RALEIGH, N. C., Jan. 7.—The house of representatives assembled with an attendance of 118 members. John R. Webster, the nominee of the Independent Democrat, was elected speaker by a vote of 59 against 57 for Lee S. Overman, the nominee of the regular Democrats. Webster's vote was drawn from the Independents and the Republicans. At the time of his nomination Mr. Webster said that he was a Democrat, and would administer the affairs of the house as a Democrat, if elected. B. M. Bulig, Republican, was elected chief clerk over Cameron, Democrat, by a vote of 60 to 58.

## Tobacco Men riot.

LOUISVILLE, Ky., Jan. 7.—The leaf tobacco men of this city have prepared, and sent to Senator Beck a protest from "the greatest tobacco market in the world" against the passage of Section 4, interstate commerce bill. They assert that under the operation of the bill the present competition between railroad and river transportation companies will cease; that the rates will be materially increased between river towns and cities, and that in order to earn their fixed charges railroads will be obliged to advance their through rates.

## Illinois Legislature.

SPRINGFIELD, Ill., Jan. 7.—Both the senate and the house met at 10 o'clock today, and the fact that from now until balloting for senator but little interest will be manifested by the public in the work of the legislature, was proven by the thinly filled galleries. A joint resolution setting aside the fourth Wednesday in January for a Logan memorial day was adopted, and a joint resolution providing that balloting for senator shall begin at 12 o'clock, January 13, was adopted.

THE alarm of fire at half-past 11 o'clock last night was caused by a small blaze in W. W. Holton's dry goods store. The flames were discovered by night watchman Driscoll, who forced an entrance, and extinguished them. The damage is but trifling. The fire is thought to have started from a cigar stump.

Our city readers will remember, that in the play of "Hidden Hand," by Cora Van Tassel, a big black dog took part. A few days ago, another big dog took part in a sensational drama in Cincinnati. At a critical point in the play the dog came bounding out, seized the villain by the throat, or thereabouts, hung on like grim death, amid uproarious applause, but something gave way and the dog fell near the footlights and then he stood there and calmly ate a big piece of liver, which had been fastened under the villain's throat and had hitherto been the incentive for the dog's exertion.—Bourbon News.

William Wormald was granted lease of river front for one year at \$100.

Committee to confer with Maysville and Big Sandy Railroad Company as to length of spans on Front street reported that they had decided that all spans should be 33 feet in width, excepting one at Wall street which should be 66 feet in width. The decision had been submitted to the railroad company.

An ordinance regulating license on hacks, coaches, omnibuses &c., was read. It strikes out the words "for hire" in the original ordinance, and imposes a license of \$5 on the owner of each wagon, hack, or hackney coach, or other four-wheeled vehicle for the conveyance of passengers, except omnibuses, upon which the license shall be \$10; for each additional omnibus owned and run by same party \$7.50, and for each additional hack &c., \$3. For two-horse wagon \$5; for each additional two-horse wagon owned and run by same party \$3.00; for each dray \$3.00, and for each additional dray owned and run by same party \$2.50; for each cart and one-horse wagon and all one-horse vehicles \$3.00. A motion to suspend rules and pass ordinance was lost.

Permit granted to Watkins & Weiland to build ice house on west side Limestone street near Front.

Following were granted coffee-house license:

The proposition to give Mrs. Logan a pension of \$2,000 a year, as was proposed in Congress Thursday, is the sheerest nonsense. It is said that Gen. Logan left an estate worth \$100,000, and a donation of nearly \$50,000 more has been made. But if neither one of the above statements is true, are we to establish the precedent that whenever a Senator dies his family shall be pensioned?—Lexington Transcript.

## Thanks

to Billie Driscoll, night watchman, for his promptness in discovering and extinguishing the fire at my store last night. Also to the fire company for their readiness to assist, and to all others who assisted. W. W. Holton.

## An End to Bone Scraping.

Edward Shephard, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c per box by J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

## Good Results in Every Case.

D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs: had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for Consumption, did so and was entirely cured by use of a few bottles. Since which time he has used it in his family for all coughs and colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery. Trial bottle free at the drug stores of J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

## Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by J. C. Pecor & Co.

AMERICAN peas, better and cheaper than French, try them at G. W. Geisel's.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight alums or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 106 Wall St., New York.

## THE CZAR FORTIFYING.

### RUSSIA MAKES STRONGER HER AUSTRIAN FRONTIER.

A Rumor That Prince Alexander Would Return to Bulgaria is Said to Be the Cause of These Warlike Preparations. Discussing Germany's Army Bill.

LONDON, Jan. 7.—The Daily Telegraph's Vienna correspondent says intelligence comes from Warsaw that the Russian war office has decided to construct more forts on the Austrian frontier, to be commenced at once. The mooted return of Prince Alexander to Bulgaria is unanimously represented by the Russian press as a casus belli.

#### Germany's Military Bill.

BERLIN, Jan. 7.—The commission on the army bill met yesterday. Herr Rickert, Progressist, moved that the strength of the army in time of peace be fixed at 454,444. Herr Huene, a member of the centre party moved that it be fixed at 498,498, as in the bill, but that the terms of operation be three years instead of seven. Both motions were rejected. The article was adopted as amended on the first reading. The third and fifth articles repealing such provisions of the old military law as are at variance with the present bill, and providing for the operation of the latter in Bavaria and Wurttemberg, were passed.

Huene proposed an amendment to Article 4, exempting theological students from military service. The amendment was rejected. Finally the committee reaffirmed the resolutions by a vote of fourteen to twelve. The report on the bill will be prepared on Friday. The debate on Huene's motions disclosed the fact that the center is divided. Ballestrem and Frankenstein opposing clerical members. It is strongly believed that the government's demands embraced in the military bill will be conceded for three years, and possibly seven.

#### In the Army Eighty Years.

BERLIN, Jan. 7.—Emperor William, in reply to the congratulations of the Russian Kaluga regiment, of which he was honorary colonel, sent the following telegram: "I was not disappointed in my expectation that my faithful Kaluga regiment would remember the eightieth anniversary of my entry into the army. I received with pleasure the good wishes expressed in connection with so exceptional a jubilee. I shall preserve my attachment to the regiment until the last moment of my life."

#### Lord Churchill Responsible.

LONDON, Jan. 7.—The St. James Gazette states that Lord Churchill is responsible for the blunder committed by the Right Hon. Cecil Raikes, postmaster general, in contracting with the North German Lloyd Steamship company for the carrying of the Anglo-American mails. It says that Lord Randolph's demands for the exercise of economy in the different departments compelled the postmaster general to seek the cheapest market.

#### The Prince Will Preside.

LONDON, Jan. 7.—The Prince of Wales will preside on the 12th inst. at a meeting of Lord-Lieutenant Mayors and other public officials from all parts of the kingdom to discuss the proposal to establish an imperial institute.

#### A SMALL WRECK.

An Accident to Two Trains That Might Have Resulted Seriously.

CHICAGO, Jan. 7.—A carload of passengers on the outward bound eastern express train of the Lake Shore & Michigan Southern railroad had a most miraculous escape from a frightful death this morning. Just at the moment the baggage car was on the crossing at Sixteenth street, a Louisville, New Albany & Chicago passenger train came up. The engineer of the latter train could not stop it and the engine struck the rear end of the Lake Shore baggage car. It was knocked completely off the trucks.

The two trains had not yet come to a stand still, and a moment after the baggage car was struck the rear car which followed was overturned. It fell on its side. The car was full of passengers, and in an instant there was with confusion among them. The engine, however, did not strike the smoker with sufficient force to smash it, and soon the frightened passengers were crawling through the windows to safety, their exit being hastened by aid of the trainmen and the inmates of the other cars. The fire in the stove was still burning, and did not communicate to the car. Had the engine broken it there would in all probability have been a frightful loss of life.

#### Advertising Agents Fail.

NEW YORK, Jan. 7.—Duncan Sniffen & Co., extensive advertising agents, of Park Row, have failed for \$100,000. Their assets amount to nothing. They have large book accounts, but they are of little or no value. The leading cause of Sniffen's failure was the assignment of the Duffy Malt Whisky company.

#### The Nickel-Plate Bondholders.

NEW YORK, Jan. 7.—Counsel for the first mortgage bondholders of the Nickel-Plate railroad, announce that they have taken steps to appeal from the recent adverse decision of Judge Jones at Cleveland. The case will be tried again in the same court as before, and then, if necessary, taken to the supreme court of the state. The decision is but the beginning of a protracted litigation. Meanwhile similar suits have been begun in the other states through which the road runs. The Ohio decision affects only the portion of the road in that state.

#### Six Hundred Tanners Strike.

NEW YORK, Jan. 7.—Six hundred tanners and leather workers struck in the Newark leather factories because their employers neglected to adopt the schedule presented on Thursday last by the United Team Men and Tanners. Many of the Newark shops have been paying the rate demanded, and these are not affected by the strike. The schedule arranges a weekly stint for the men employed in each branch of the work and weekly wages. It demands the abolition of contract work, ten hours as a day's work, and Saturday settlements. District Assembly 51, Knights of Labor, ordered the strike. The shops affected are those of T. P. Howell & Co. and James M. Duffy. In Howell's shop some of the men had a promise of the schedule price while others had not, and they all left together. The difference between the prices now paid in this shop and the new list is about \$1 a week. More than 100 tailors and tailoresses in William Kraft's clothing factory, at 29 Green street, Newark, have struck. Their wages had been reduced.

"I want something to cure my cough. I have tried our doctor, and almost every proprietary medicine I ever heard of, but nothing seems to do me any good," a lady said to the clerk in a large drug-store.

"Gooch's Mexican Syrup gives the most general satisfaction of any thing we have ever sold, and is pronounced by some of our most prominent people to be the best remedy for coughs and lung troubles ever put upon the market. We sell more of it than all other cough remedies put together. You see our customers risk nothing in buying, as the proprietors authorize all druggists to guarantee it; so if this does not give you satisfaction, we will refund the money. It has made some remarkable cures," he replied.

#### A WORD TO CONSUMPTIVES.

Consumptives, because all other things fail, believe not that Gooch's Mexican Syrup will. CONSUMPTION CAN BE CURED. Tuberculous matter is nothing more than nourishment imperfectly organized. Now, if we can procure the organization of this food material so that through the process of electric affinity it may take its place in the system, we can cure the disease. This is just what Gooch's Mexican Syrup does: It at once stops the progress of the disease by preventing the further supply of tuberculous matter, for while the system is under its influence all nourishment is organized and assimilated. It controls Coughs, Night-Sweats, and all other symptoms of consumption. GOOCH'S MEXICAN SYRUP HAS CURED THOUSANDS AND IT WILL CURE YOU. This remedy is pleasant to the taste, and may be given to children with perfect safety. It affords immediate relief. Clergymen, lawyers and other public speakers will be greatly benefited by using this remedy to clear and strengthen the voice. This medicine is prepared and every bottle warranted by CINCINNATI DRUG & CHEMICAL CO., 54 Main Street, Cincinnati, Ohio. For sale by all druggists. 50 cts. per bottle. If your medicine dealer hasn't it and won't get it for you, send us 50 cents and we will send a bottle, expressage prepaid to any part of the U. S.
